

CUSTOM SCENICS

- We can build trees to your specific requirements
- We can pantone match foliage colours
- 2,892 tree options are available via our Build-a-Tree website tool
- Contact 020 7264 1294 or workshop@modelshop.co.uk

SERVICE OVERVIEW

The tree selection available through the shop is only a small part of the complete range of trees that we offer. We can provide any of our standard range with variants to your requirements i.e. different coloured trunks (brown, dark brown, fawn, white) or foliage (46 textures) through our Build-a-Tree website tool (www.modelshop.co.uk/Shop/Build-a-Tree).

We will copy a tree from any photo reference that you provide.

BESPOKE TREES

We have the experience of many years of producing trees to the specific requirements of our clients. Whether it is a stylised design, species-specific shape, or an altogether unconventional colouring that is required; we work closely with the client to make sure we deliver what you want.

Orders can be fulfilled within 2 – 10 working days depending on the tree type and the quantity required. When setting up a bespoke project there is some information that we require at the beginning:

- Contact details of the person with whom we should liaise with about details
- A picture of the tree that is required
- Colour specifications
- Quantities and heights (include other dimensions if known)
- Latest deadline you would like the trees by.

FURTHER INFORMATION

After receiving your tree information, we will develop a quote which must be approved before any production work begins.

We can usually produce a sample tree before the order is confirmed. However, this is chargeable if the order does not go ahead or if the specifications are changed.

For examples of bespoke trees we have made go to www.modelshop.co.uk and look for BESPOKE SERVICES/BESPOKE TREES
